

Today it is 6 months ago that Tim went to heaven...

Every second of those 6 months were filled with pain and heartache. As we are trying to live by Tim's motto to always stay positive, it's been just a painful journey. Sometimes we are so selfish and just wished that Tim was still here battling through chemo and all it's unbearable side effects. But as we know it's a selfish thought, it maybe show a little of how much we miss him every second of every day!

6 months ago feels just like yesterday! As our dear friend Gay would say, "you are now in the no time zone".

Life for Others Foundation on the other hand has just rolled from one activity into the other in the last 6 months. We have already raised over \$120000 with your help!! When Tim only weeks before his passing presented us with his foundation, we knew he wanted this to become BIG! Tim never did anything small. As one of his wishes on his bucket list was "to make an impression on a stranger", we know that through his foundation he will continue to do just that!

Besides us as Tim's parents and his doctor, Dr. Rubin, we have a couple of new people on board to help us with the foundation. We already received a few proposals from researchers who would like to have a funding for synovial sarcoma research. We hope to attend synovial sarcoma conventions, so we can spread the word of "Live For Others Foundation", all with just one goal in mind; "to find a cure for synovial sarcoma"!

In the meantime....

We are trying to find our smile again in between lots of tears.

We miss you Tim!

Mom, Dad and Pat
